

War is Big Business, and Business will be Booming at CANSEC

CANSEC, Canada’s largest arms bazaar, is returning to Ottawa, June 2-3, 2010. Thousands of buyers, sellers, users and promoters of the latest military hardware will be rubbing shoulders at this war industry trade show. Hundreds of war industries will showcase cutting-edge technologies used in Iraq, Afghanistan, Gaza and elsewhere.

Hiding behind the rhetorical facade of “defence and security,” CANSEC exhibitors produce rockets, missiles, armoured battle vehicles, high-tech electronics for the world’s deadliest warplanes, multi-million dollar gizmos for militarising space, down-to-earth automatic weapons, tear-gas rifles and other “crowd-control” devices.
