## "Missile Defense" Trojan Horse for the Weaponization of Space

If you receive a large wooden gift horse with the euphemistically reassuring name, "Missile Defense," *do not accept it!*

### WARNING!

Hidden inside is a covert team of war planners, heavily-armed warriors, greedy arms merchants, smooth-talking lobbyists, shameless propagandists, right-wing ideologues and naive, willingly-deceived liberals.

Under the guise of "national security," they are hell-bent on gaining the ultimate high ground for all future wars.

This "gift" will cost hundreds of billions of dollars, which would, of course, be much better spent on health, education,

housing, day care, etc., etc.

This issue of *Press for Conversion!* exposes what's hidden inside the Trojan Horse. Please buy extra copies and give them as gifts to everyone you know.
