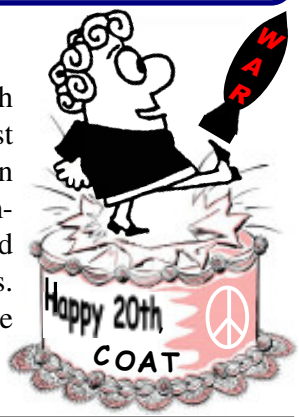
Letter from COAT's coordinator.....49

20 years and still kickin'



COAT was initially formed in 1989 to oppose ARMX, which was then Canada's largest war industry bazaar. COAT's first campaign led to Ottawa's 20-year ban prohibiting arms shows on City property. Over the past two decades, COAT has—with limited resources—published *Press for Conversion!*, and organized antiwar rallies, vigils, conferences, festivals and other events. Please join us in exposing and opposing Canada's often-hidden role in aiding and abetting US-led wars and invasions! *It's time Canada kicked the arms trade habit and pressed for conversion!*
